# Perennials from Field

Not "just so-so," but the kind of stock you look at when it arrives, and think privately, "Packer must have made a mistake; they can't put out that kind of stuff for so little money." Cushionmums, for instance, standing here in field rows with so much spread they can't be cultivated. Tractor wheels won't go down the rows without doing a lot of damage. Columbines with a "wingspread" of a foot and a half. Hybrid Delphiniums with bloomheads as long as your arm. Real merchandise! Perennials like these will make friends for you and for us. Try some of them.

We can ship any time you instruct, but suggest Sept. 15th and after.

**NOTE:** Priced per 100; 25 or more at the 100 rate; add 3c each for less than 25 of a variety.

	per 100
<b>AQUILEGIA</b> (Columbine)	
Crimson Star. Red and white .....	\$12.00
longissima. Yellow .....	10.00
Mrs. Scott Elliott. Many shades. ....	10.00
Snow Queen. Pure white. ....	12.00
<b>ASTER</b> (Tall except as noted)	
Beechwood Challenger. Red. ....	12.00
Mt. Everest, White. ....	12.00
Sunset Pink .....	12.00
Victor. Very dwarf blue. ....	12.00
Violetta. Excellent violet-blue. ....	15.00
<b>LIGHT GRADES OF ABOVE.</b> A late planting of Asters made in early July, will not make up to our usual heavy quality, and we offer these lighter plants in Beechfood Challenger, Mt. Everest, and Sunset Pink, at \$7.00 per 100; Violetta at \$8.50 per 100. They are just right to pot up for next Spring's sales.	
<b>CARNATIONS.</b> Hardy Grenadins; they do not bloom until the second year, and thus have not been rogued for trueness to color. Red, Pink, White, Yellow, King of the Blacks. ....	10.00
<b>CHRYSANTHEMUMS</b> (Hardy, tall Garden Varieties)	
Autumn Lights. Tall, coppery-bronze .....	12.00
Betty. Apple-blossom pink; double.....	15.00
Golden Charm. Double, tall, nice. ....	12.00
Judith Anderson. Pure yellow button. ....	12.00
Lavender Lady. Large flowers, fragrant. ....	12.00
Mrs. Sam P. Rotan. Yellow. ....	12.00
Orchid Spoon. Best of spoon type .....	12.00

## Perennial Liners in Plantbands

### For Spring '49 Delivery

Last Spring our list offered a limited number of perennial varieties in Plantbands. Because our customers have written us so very many letters telling us of the wonderfully satisfactory results they have had from these banded perennial liners, it is our purpose to list below those liners which we anticipate having to offer for Spring '49 delivery, so that you can make reservations now, and thus give us a guide to follow in preparing these plants for you. Without such a guide last spring, our supplies of many items were exhausted in February and early March.

Some are banded seedlings, transplanted to bands during the fall and winter. Asters, Mums, Shastas, and Spirea astilbe are from rooted cuttings and divisions banded Fall '48 and winter '48-'49. These plants can go directly to the field. Or another idea: pot up in Spring '49 into 4" or Neponset pots some of each of these perennials, and plunge the pots near your Customer Parking Lot. As the plants come into bloom, you will find the sales quick and profitable.

As an inducement to order promptly, we offer you a discount of 10% from the prices listed below, on all orders for these banded perennials received before November first '48. Shipment in May '49.

Only 100 rates are quoted: please order 25 or more of a variety. Be certain to read above and take advantage of discount.

**AQUILEGIA** (Columbine)

Per 100

Crimson Star. Red and white.	\$ 7.00
longissima. Yellow.	6.00
Mrs. Scott Elliott. All colors and shades.	5.00

<b>America.</b> Lilac-rose. ....	8.00
<b>Gladstone.</b> White. ....	8.00
<b>Granat.</b> Crimson red. ....	8.00
<b>Peachblossom.</b> Pink. ....	8.00

**LINERS IN PLANTBANDS**

For Spring '49 Delivery

Some of these liners are now in bands. Some are in Propagating Houses; and some will be propagated later this Fall and Winter. All will have been banded at least 30 days before being shipped.

You save money buying plants in Plantbands as compared to plants from 2 1/4" clay pots, because:

1. Plants in bands are moved by the flatful; plants in clay pots must be handled individually. Much labor is saved.
2. Plants in bands are shipped in the bands; plants

from clay pots must be knocked out and placed in paper pots. Expense is eliminated.

3. Plants in bands arrive in good order because the bands hold them firmly together; being cubical in shape, they pack well. Potted plants, shifted to paper pots, pack loosely, and take a beating in transit. Losses are prevented.

4. Plants in bands have nearly twice as much soil about the roots as does the usual 2 $\frac{1}{4}$ " pot. They will ship farther, and still remain in moist condition. More losses prevented.

5. Plants in bands transplant better, because of the large amount of soil about the roots. It holds moisture longer, insuring better stands.

6. If plants in bands arrive at an inconvenient time, they can be set up in flats and left for indefinite periods before being planted. Plants from small clay pots must either be repotted or planted at once.

7. Banded plants handle easily and quickly in the field. No pots to haul out, gather, and wash. It costs less to plant them.

Such of these savings and eliminations of expense as can be made here are passed on to you in the form of lower prices.

## Banded Shrubs and Evergreens

(Cuttings in Plantbands, banded at least  
30 days before shipment)

For Delivery Spring '49

**RATES:** Please order 25 or more of each selection at these prices. Write for special prices on large quantities. 10% discount will be allowed on orders booked before November 1st, '48.

**DELIVERIES:** Where practicable, we will deliver 2500 or more banded plants by truck. Charges will be reasonable. Where truck deliveries are not feasible, shipment will be made by Express.

## 3" POT STOCK

If you have equipment to properly cultivate small plants, you can plant out directly to the field the banded plants we offer above, with the possible exception of Ilex, which may be happier in shaded beds or larger pots for a year. Yet we have had a number of inquiries each year for larger stock. This year we put into bands 25,000 plants which we reserved for repotting this summer into 3" clay pots. These are offered below for Spring '49 delivery. They are fine stock,

and will be carried through the winter plunged in coldframes. They will come to you properly rested, so that they will make excellent growth their first year in the field.

The variety list is somewhat limited. But if it is found that the demand for this stock justifies it, we shall prepare next season considerably more of this class of stock.

**Prices below are 100 rates; so please order 25 or more of a variety. 10% discount will be allowed for all orders booked before Nov. 1st '48.**
